

PASADENA, CA – JANUARY 2015. Obsolescence announcement.

Kinematics is announcing End-of-Life of the PBB-200S Broadband Seismometer. Kinematics decided to discontinue PBB-200S effective January 1, 2015.

PBB-200S will continue to be supported through January 1, 2018.

Kinematics suggests Model MBB-2 as replacement, which offers more benefits, such as lower power consumption, smaller weight and footprint, and can be directly buried.
