

**PASADENA, CA – JANUARY 2019. Obsolescence announcement**

Kinematics and Streckeisen are announcing End-of-Life of the Broadband Seismometer **STS-2**. Kinematics and Streckeisen decided to discontinue STS-2 a number of years ago and decided to stop any repairs effective **January 1, 2019**.

Kinematics and Streckeisen recommend the Broadband Seismometer STS-2.5 as a direct replacement, which offers same performance, more robustness, less susceptibility to pressure variation, and easier centering.
