

PASADENA, CA – MARCH 2021. Obsolescence announcement.

Kinematics is announcing End-of-Life of the Packet Baler 44 (PB44 Field). The Quanterra Packet Baler 44 was introduced as a Network-aware Rugged Field Recording System for Q330 digitizers. Kinematics decided to discontinue the Packet Baler 44 effective March 1, 2021.

The Packet Baler 44 will continue to be supported through March 1, 2024.

Kinematics recommends the [Q330S+](#) and [Q330HRS](#) data loggers instead, both integrating Q330 digitizers (24-bit) or Q330HR digitizers (26-bit) with the Packet Baler 44 recorder and network communicator in one single package.
